Whether you are experienced with project management or just starting out, the Center for Leadership and Innovation's Professional Certificate in Project Management can provide you with the knowledge and skills to oversee projects from start to finish. Our seminars are designed to benefit professionals working in businesses and organizations of all kinds.

Take five seminars to earn a Professional Certificate in Project Management, or register for just one or two seminars to hone your project skills.

AS A PARTICIPANT, YOU WILL:

- Develop the skills of core project management practice
- Learn how to implement projects and programs in agile environments
- Enhance techniques to become a more effective team member and exceptional team leader
- Understand how to manage successfully in settings that require partnering with others and collaborating to achieve common goals
- Apply tools and strategies to keep your projects on time, in scope, and within budget

GETTING THE MOST OUT OF YOUR EXPERIENCE

CLI’s Professional Certificate in Project Management provides you a foundation of knowledge that you can apply immediately to your business or organization. In addition, the program offers you:

- Highly qualified UVM faculty and instructors
- Interactive and engaging seminar formats, including hands-on practice using real case studies
- Connections in the UVM community, your partner in management development

GRANT FUNDING AVAILABLE

Through the Vermont Training Program, VT Department of Economic, Housing and Community Development, you may be eligible for a 40% price reduction if you work in one of these sectors: Manufacturing, Information Technology, Health Care, Telecommunications, and Environmental Engineering.

A 20% price reduction is available for UVM affiliates and their families, PMI Champlain Valley members, and for groups of two or more from a single organization.
